

TML FREE RESEARCH API TIER

TERMS OF SERVICE

Last updated August 20, 2026

These TML Model Free Research API Tier Terms of Service (the “**Agreement**”) contain the terms and conditions which govern your (“**Customer**”, “**you**” or “**your**”) access to and use of the Company Models (as defined below) of Thinking Machines Lab, Inc. (“**Company**”, “**we**”, “**us**” or “**our**”) that are made available to you on an API basis via the Model API Services (as defined below).

You agree to be bound by this Agreement by: (i) clicking to accept this Agreement; or (ii) accessing or using the Model API Services. For any individual who procures a right to use the Model API Services on behalf of an entity or organization, such entity or organization is considered the Customer and “you” and “your” hereunder, and such individual represents and warrants that he or she is an authorized representative of the Customer with the authority to bind the Customer to this Agreement. This Agreement can be accepted only by an adult of legal age of majority in the country in which the Model API Services are used. If you are not old enough to enter into this Agreement or if you do not accept all the terms and conditions below, do not use the Model API Services. For clarity, this Agreement, and not the Service Terms of Use available at <https://thinkingmachines.ai/legal/terms/>, applies when you are using the Model API Services through API Platforms.

1. ACCESS AND USE OF SERVICES

a. Access to Services. Subject to this Agreement, we hereby grant you a non-exclusive, limited, non-transferable, non-sublicensable, worldwide, royalty-free, freely revocable right during the Term to access and use the Model API Services and to develop integrations that allow end users (“**End Users**”) of your products or services (“**Customer Application**”) to interface with the Model API Services through End User’s use of the Customer Application, including any APIs or other interfaces made available to you as part of the Model API Services, in each case, in accordance with any Documentation and solely for the purposes expressly permitted by, and in accordance with, the Documentation. Customer acknowledges that certain Company Models may be provided through the Model API Services in beta form, and therefore may not be sufficiently available or suitable for commercial use. “**Model API Services**” means the proprietary AI models of Company (the “**Company Models**”), together with the related Documentation, that are made available for use via an API Platform. “**API Platform**” means a third-party platform listed in Exhibit B, which may be amended by Company from time to time, through or by which the Company Models are available for access and use via an application programming interface (“**API**”) endpoint. “**Documentation**” means any technical documentation or user manuals distributed or made available by Company in connection with the Model API Services.

b. Models. The Company Models are proprietary models owned by the Company that the Company hosts and makes available through an API Platform. The Company may add, modify, or remove access to any Company Model at any time in its sole discretion. For

clarity, your right to use the Model API Services hereunder do not permit you to host, train, fine-tune, download, or otherwise obtain the weights or parameters of any Company Model, and you agree not to do the same.

c. Restrictions on Access and Use. Your and your End Users' use of the Model API Services and the Customer Content (as defined below) generated therefrom shall abide by and be consistent with our Acceptable Use Policy attached hereto as Exhibit A ("**Acceptable Use Policy**"). You are responsible for the proper operation of your Customer Application and network and systems used to connect to the Model API Services. Company has the right (but not the obligation) to monitor, including through automated or manual review, your use of the Model API Services and any Customer Content to assess compliance with this Agreement and applicable laws and for other trust and safety purposes.

d. Customer Application and End Users. You agree that any Customer Applications that you make available to interface with the Model API Services must comply with all applicable laws. You agree you are responsible for your End Users' compliance with this Agreement. Any obligations under this Agreement that apply to you also apply to your End Users. Without limiting the foregoing, you must require End Users to comply with all applicable laws, this Agreement, and our Acceptable Use Policy in connection with their access or use of the Model API Services through your Customer Application.

e. Access Through API Platforms. The API Platforms are separate from the Model API Services. The API Platforms are operated by third parties and facilitate your ability to access our Model API Services as well as AI models of other third parties. This Agreement only governs your use of the Model API Services, not the API Platform. Your access to and use of each API Platform itself, including any account, credentials, API keys, APIs, rate limits, and any fees charged by the API Platform, is governed solely by the agreement between you and the operator of that API Platform. The Company is not a party to that agreement for the API Platform and, to the maximum extent permitted by law, has no responsibility or liability for the acts or omissions of any API Platform or its operator, including the availability, quality, legality or any other aspect of any API Platform (other than our Model API Services made available through such API Platform). The Company does not warrant or endorse any API Platform. If your access to the Model API Services through an API Platform is suspended or terminated, or the API Platform ceases to make the Company Models available, your rights under this Agreement with respect to use of the Model API Services via that particular API Platform will terminate accordingly. The API Platforms in which you may access the Model API Services through may change from time to time, and we do not guarantee the continued availability of the Model API Services through any API Platform. To the maximum extent permitted by law, Company disclaims, and will have no responsibility or liability for, acts or omissions of any third party provider in operating its API Platform (including outages, network failures, or data loss/corruption) to the extent attributable to such third party provider or the infrastructure it uses to operate its API Platform.

f. Changes to the Services. Company may, at its sole discretion, add, change, or remove the functionality, features, or other aspects of the Model API Services, and throttle, limit, suspend or terminate your access to the Model API Services at any time without notice to you, including as Company may deem necessary to promote the security, stability,

availability, or integrity of the Model API Services. Company may also disable or change some features, functionality, or other aspects of the Model API Services based on your location or other factors.

2. FEES

The Model API Services are provided to you free of charge. The Company may, at any time and in its sole discretion, begin charging fees for the Model API Services (under separate terms), introduce or modify usage limits, or discontinue the free availability of the Model API Services, in each case upon notice (which may be given through the API Platform or the Documentation). Any fees charged by an API Platform for access to the Model API Services are governed solely by your agreement with that API Platform, and the Company is not responsible for them.

3. INTELLECTUAL PROPERTY AND DATA USAGE

a. Ownership of the Services. You agree that we retain all right, title and interest in and to the Model API Services, including any Company Models and any updates thereto. Except for the limited rights set forth in the Agreement, no right, title or interest in or to the Model API Services is granted to you. Company reserves all of its intellectual property and other proprietary rights not expressly granted to Customer herein.

b. Prompts and Customer Content. As between you and Company and to the extent permitted by law, Company claims no ownership rights in or to the material, information or other content you and End Users transmit, post or make available to the Model API Services (“**Prompts**”) and any responses generated thereby (“**Outputs**” and, together with the Prompts, collectively, “**Customer Content**”). You grant us a worldwide, irrevocable, perpetual, royalty-free license to retain, access, use, host, copy, reproduce, process, modify, create derivative works of, and otherwise exploit the Customer Content to operate, provide, maintain, evaluate, develop, and improve the Company’s products, services, and technologies, including to train, fine-tune, evaluate, and improve the Company Models and other AI models. We may retain and use the Customer Content for these purposes during and after the Term. You are solely responsible for your use of the Outputs, and you shall not, and will ensure that your End Users do not (i) represent that Output was human-generated or (ii) use infringing Outputs after you become aware of such infringement. You acknowledge and agree that your use of the Model API Services and the Output does not transfer to you ownership of any intellectual property rights in the Model API Services. You must not submit to the Services any personal data, information that you know or reasonably should know is from or about children under the age of 13 or other age of online minority in the applicable jurisdiction, sensitive or special-category information, health information, financial or payment card information, or any other information subject to heightened legal safeguards. You represent and warrant that you have all rights, consents, and permissions necessary to provide the Prompts to the Model API Services and to grant the license in this Section 3(b).

c. Usage Data. We may collect, or you may provide to us, diagnostic, technical, usage or other similar information related to your use of the Model API Services (collectively, “**Usage Data**”). Such Usage Data excludes Customer Content. All Usage Data is and will be owned

solely and exclusively by us, and, to the extent any ownership rights in or to the Usage Data vest in you, you hereby assign to us all rights (including intellectual property rights), title and interest in and to the same. We may use, disclose, maintain or process the Usage Data or any portion thereof for any lawful purpose, including without limitation to (i) provide, evaluate and maintain the Model API Service; (ii) improve our existing and develop new products and services and features thereof (including the Model API Service); (iii) monitor your use of the Model API Service; (iv) conduct research or analytics; and (v) share analytics and other derived Usage Data with third parties, solely in de-identified or aggregated form.

d. Feedback. To the extent you provide us any suggestions, recommendations or other feedback relating to the Model API Services or any other Company products or services (collectively, “**Feedback**”), you hereby assign to us all right (including intellectual property rights), title and interest in and to the Feedback. We have the right (but not the obligation) to use the Feedback and any ideas, know-how, concepts, techniques or other intellectual property contained in the Feedback, without providing any attribution or compensation to you or to any third party, for any lawful purpose.

4. CONFIDENTIALITY

a. Confidential Information. “**Confidential Information**” means all information that is identified as confidential at the time of disclosure by the Disclosing Party or reasonably should be known by the Receiving Party to be confidential or proprietary due to the nature of the information disclosed and the circumstances surrounding the disclosure. All Model API Services and the terms and conditions of the Agreement will be deemed our Confidential Information without any marking or further designation. Confidential Information shall not, however, include information that the Receiving Party can demonstrate: (i) was rightfully in its possession or known to it prior to receipt of the Confidential Information; (ii) is or has become public knowledge through no fault of the Receiving Party; (iii) is rightfully obtained by the Receiving Party from a third party without breach of any confidentiality obligation; or (iv) is independently developed by employees of the Receiving Party. Customer Content is not Confidential Information.

b. Confidentiality. Each party (the “**Receiving Party**”) may receive Confidential Information of the other party (the “**Disclosing Party**”) in the course of the Agreement. Accordingly, the Receiving Party agrees to use the same degree of care that it uses to protect the confidentiality of its own confidential information of like kind (but not less than reasonable care), and further agrees to: (i) not use any Confidential Information of the Disclosing Party for any purpose outside the scope of the Agreement; and (ii) except as otherwise authorized by the Disclosing Party in writing, limit access to Confidential Information of the Disclosing Party to those of its and its affiliates’ employees and contractors who need that access for purposes consistent with the Agreement and who are bound by obligations of confidentiality to the Receiving Party not less protective of the Confidential Information than those herein. Receiving Party agrees to hold the Disclosing Party’s Confidential Information in confidence during the term of the Agreement and for a period of five (5) years after the termination or expiration of the Agreement (except that with respect to Confidential Information that qualifies as a trade secret under applicable law, the confidentiality obligations shall be perpetual).

c. Permitted Disclosures. If a Receiving Party is required by law, regulation or court order to disclose Confidential Information of the Disclosing Party, then the Receiving Party shall, to the extent legally permitted, provide the Disclosing Party with advance written notice and reasonably cooperate in any effort of the Disclosing Party to obtain confidential treatment of the Confidential Information, including the opportunity to seek appropriate administrative or judicial relief.

d. Injunctive Relief. The Receiving Party acknowledges that disclosure of Confidential Information would cause substantial harm for which damages alone may not be a sufficient remedy, and therefore that upon any such disclosure by the Receiving Party, the Disclosing Party may be entitled to seek appropriate equitable relief in addition to whatever other remedies it might have at law.

e. Return of Confidential Information. Upon written request of the Disclosing Party, except for electronic copies made in the course of normal network backups or as otherwise set forth in this Agreement, the Receiving Party will promptly return to the Disclosing Party or destroy (and provide written certification of such destruction) all materials containing or reflecting any of the Disclosing Party's Confidential Information.

5. PRIVACY AND SECURITY

While the Company Models are not intended to process personal information, to the extent you submit a Prompt containing personal information or if we otherwise process your personal information in the course of providing the Services, our [TML Free Research API Tier Privacy Notice](#) shall apply to such personal information.

6. TERM AND TERMINATION

a. Term. The Agreement is effective as of the earlier of (i) the date you accepted this Agreement, or (ii) the date that you first accessed or used the Model API Services and will remain in effect until terminated in accordance with the terms of the Agreement (the "Term").

b. Right to Terminate. If you want to terminate this Agreement, you may do so by stopping your use of the Model API Services. Your right to use the API Service terminates automatically without notice from Company (a) if you fail to comply with this Agreement or (b) if you engage in illegal or improper use of the Model API Services or Customer Content. Additionally, Company may at any time and without notice from Company terminate the availability, or your use, of the Model API Services.

c. Right to Suspend. Company may suspend your right to access or use any portion or all of the Model API Services immediately (i) if we reasonably determine your or your End Users' use of the Model API Services (a) poses a security risk to the Model API Services or any third party; (b) could adversely impact our systems, the Model API Services or the systems or content of any of our other customers; (c) could subject us, our affiliates, or any third party to liability; (d) is in violation of the Acceptable Use Policy or other applicable law; or (e) could be fraudulent; or (ii) at Company's sole discretion in lieu of termination under Section 6.b above (any such suspension, a "Services Suspension"). Company will have no

liability for any damage, liabilities, losses (including any loss of data or profits), or any other consequences that Customer or any of its representatives may incur as a result of a Services Suspension.

d. Effect of Termination. Upon termination of the Agreement, your right to access or receive the Model API Services (and our obligations to provide Model API Services) will terminate, and you shall immediately cease using the Model API Services.

e. Survival. Any provisions that by their nature are intended to survive the expiration or termination shall survive the expiration or termination of this Agreement.

7. WARRANTY; SUPPORT AND MAINTENANCE

a. Mutual Warranty. Each party represents and warrants to the other party that it has validly entered into the Agreement and has the legal power to do so and, in connection with its performance of the Agreement, shall comply with all laws applicable to it.

b. Customer Warranty. Customer represents, warrants and covenants that (i) Customer's use of the Model API Services shall comply with all applicable laws, rules and regulations; (ii) any Customer Application that you integrate with the Model API Services complies with all applicable laws, rules and regulations; and (iii) Customer shall not use the Model API Services in violation of any third-party rights.

c. Warranty Disclaimer. OTHER THAN AS EXPRESSLY PROVIDED ABOVE, TO THE MAXIMUM EXTENT PERMITTED BY LAW, THE SERVICES, INCLUDING ANY COMPANY MODELS, AND THE MATERIALS PROVIDED THROUGH THE SERVICES, INCLUDING THE OUTPUTS, ARE PROVIDED "AS IS" AND "AS AVAILABLE," WITHOUT ANY WARRANTIES OF ANY KIND INCLUDING WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR NON-INFRINGEMENT OF INTELLECTUAL PROPERTY. YOUR AND YOUR END USER'S USE OF ANY OUTPUT IS AT YOUR OR THEIR OWN RISK. OUTPUTS MAY CONTAIN INCORRECT INFORMATION. COMPANY DOES NOT WARRANT THAT YOUR USE OF THE SERVICES WILL BE UNINTERRUPTED OR ERROR-FREE OR THE ACCURACY AND COMPLETENESS OF THE MATERIALS PROVIDED BY THE SERVICES, INCLUDING THE OUTPUTS. COMPANY MAY MAKE CHANGES TO THE SERVICES AT ANY TIME, WITHOUT NOTICE.

8. INDEMNIFICATION

a. Indemnification by Customer. You agree to indemnify, defend and hold Company and each of our affiliates and licensors harmless from and against all claims, actions, or demands brought by a third party, and all resulting losses, damages, liabilities, fees, fines, penalties, costs, and expenses (including without limitation reasonable attorneys' fees and legal costs) arising from or relating to (i) your breach or violation of this Agreement, including the Acceptable Use Policy; (ii) your access to or use of the Model API Services, including your use of any Output; (iii) your Customer Application; (iv) any Customer Content, including the rights, consents, and permissions you represent and warrant under Section 3(c); (v) your violation of applicable law; or (vi) your gross negligence or willful misconduct.

b. Indemnification Procedure. The indemnified party must promptly notify the indemnifying party of any indemnifiable claim; provided, however, that the failure of any Indemnified Party to give such notice does not relieve the indemnifying party of its obligations or liabilities pursuant to this Agreement, except to the extent that such failure has proximately and materially adversely prejudiced the indemnifying party. The indemnifying party will retain the right to control the defense or settlement of any such claim; provided that the indemnifying party will not settle, or consent to any entry of judgment in, any such claim without obtaining either the indemnified party's prior written consent or an unconditional release of the indemnified party from all liability with respect to such claim. The indemnified party will reasonably cooperate in the defense of such claim and may participate in the defense of any such claim at its expense. The indemnified party may not settle, or consent to any entry of judgment, in any claim without obtaining the prior written consent of the indemnifying party.

9. LIMITATION OF LIABILITY

a. Excluded Claims. YOUR USE OF THE COMPANY MODELS, THE SERVICES, AND ANY OUTPUTS IS AT YOUR OWN RISK. IN ADDITION, EXCEPT FOR (I) EITHER PARTY'S GROSS NEGLIGENCE, FRAUD, WILLFUL MISCONDUCT, OR VIOLATION OF APPLICABLE LAW, (II) CUSTOMER'S OBLIGATIONS UNDER SECTION 8 (INDEMNIFICATION), AND (III) INFRINGEMENT BY A PARTY OF THE OTHER PARTY'S INTELLECTUAL PROPERTY RIGHTS, NEITHER YOU NOR COMPANY NOR OUR RESPECTIVE AFFILIATES AND LICENSORS WILL BE LIABLE UNDER THIS AGREEMENT FOR ANY INDIRECT, PUNITIVE, INCIDENTAL, SPECIAL, CONSEQUENTIAL, OR EXEMPLARY DAMAGES (INCLUDING LOST PROFITS, LOST DATA OR BUSINESS INTERRUPTION) UNDER ANY LEGAL THEORY, EVEN IF THAT PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

b. Liability Cap. EXCEPT FOR (I) EITHER PARTY'S GROSS NEGLIGENCE, FRAUD, WILLFUL MISCONDUCT, OR VIOLATION OF APPLICABLE LAW, (II) CUSTOMER'S OBLIGATIONS UNDER SECTION 8 (INDEMNIFICATION), AND (III) INFRINGEMENT BY A PARTY OF THE OTHER PARTY'S INTELLECTUAL PROPERTY RIGHTS, EACH PARTY AND ITS AFFILIATES' TOTAL LIABILITY UNDER THIS AGREEMENT WILL NOT EXCEED ONE THOUSAND DOLLARS (\$1,000).

10. GENERAL TERMS

a. Assignment. The Agreement will bind and inure to the benefit of each party and their permitted successors and assigns. Neither party may assign or transfer the Agreement without the other party's written consent, unless it is to an affiliate or in connection with a merger, reorganization, sale of substantially all of assignor's assets, or other change of control transaction. Notwithstanding the foregoing, if you assign or transfer the Agreement to, or undergo a change of control transaction with, (i) a competitor of ours or (ii) a party that uses the Model API Services in a manner or quantity materially different from your use prior to the assignment, transfer, or change of control, we may terminate the Agreement upon written notice.

b. Publicity. Customer will not use the Company's trademarks, trade names, logos, domain names and other distinctive brand features ("**Brand Features**") in any promotion, marketing, publication or press release without the prior written consent of the Company.

c. Governing Law & Dispute Resolution. This Agreement will be governed by and construed in accordance with the laws of the State of California, without giving effect to any principles of conflicts of laws. Any dispute arising out of, in connection with, or under this Agreement or its subject matter will be resolved by confidential binding arbitration, under the commercial rules of the Judicial Arbitration and Mediation Service ("**JAMS**"), with one (1) arbitrator mutually agreed upon by the parties. If the parties are unable to agree upon an arbitrator, JAMS will appoint the arbitrator in accordance with its rules. The arbitration will be conducted in San Francisco, California, unless you and Company agree otherwise. Disputes must be brought on an individual basis only; class arbitrations, class actions, private attorney general actions, and consolidation with other arbitrations are not allowed. If for any reason a dispute proceeds in court rather than through arbitration, each party knowingly and irrevocably waives any right to trial by jury in any action, proceeding, or counterclaim, and agrees that such claims will be brought exclusively in the federal and state courts of San Francisco, California.

d. Force Majeure. Neither party will have any liability for failures or delays resulting from conditions beyond each party's reasonable control, including but not limited to governmental actions or acts of terrorism, natural disasters or other acts of God, labor conditions, supply chain disruptions, and network, power, utility, or other technical failures.

e. Notice. Any notice, approval or other communication required or otherwise provided for under the Agreement will be in writing and deemed to have been given when (i) personally delivered; (ii) sent by email; or (iii) sent by a commercial overnight courier. You will provide such notices to support@thinkingmachines.ai. Any notices to you will be provided via the API Platform.

f. Entire Agreement & Order of Precedence. This Agreement, the Acceptable Use Policy, the Privacy Notice and all exhibits, appendices, addenda, or annexes attached, referenced and/or linked herein, constitutes the entire agreement between the parties with respect to the subject matter hereof. In the event of a conflict, this Agreement will take precedence over any exhibits, appendices or addenda attached, referenced and/or linked herein. The Agreement supersedes all prior and contemporaneous agreements, proposals or representations, written or oral, concerning its subject matter and is entered into without reliance on any promise or representation other than those contained in the Agreement. In the event of a conflict between the English version of the Agreement and any other version or translation of the Agreement, the English version shall control.

g. Relationship of the Parties. For all purposes under this Agreement, you and Company will be and act as independent contractors and will not bind nor attempt to bind the other to any contract. There are no intended third-party beneficiaries of the Agreement.

h. Trade Controls. You acknowledge that the Model API Services are subject to applicable import, export, and sanctions laws and regulations (collectively, "**Trade Controls**"), including without limitation those of the United States (e.g., the sanctions administered by

the Office of Foreign Assets Control (“**OFAC**”) (31 CFR part 500 et seq.) and the Export Administration Regulations (“**EAR**”) (15 CFR part 730 et seq.)). You agree to abide by all applicable Trade Controls. You confirm that (i) you are not a restricted or sanctioned party on a U.S. Department of Commerce or OFAC restricted party list, or similar lists maintained by other countries such as the EU’s Consolidated Financial Sanctions List and the UK’s Consolidated Lists of Financial Sanctions Targets, (ii) you are not 50% or more owned or otherwise controlled by any such party, (iii) you are not located, organized or resident in a country that is or becomes subject to comprehensive Trade Controls or prohibited from receiving Model API Services under applicable Trade Controls, and (iv) you are not using the Model API Services for any end-use prohibited by applicable Trade Controls.

i. Modification. Company may update the Agreement at any time in which case we will update the “Last Updated” date at the top of this Agreement. Your continued use of, or access to, the Model API Services after the modifications have become effective will be deemed your acceptance of the modified Agreement. If we make changes that are material, we will use reasonable efforts to attempt to notify you, such as by placing a prominent notice on the Model API Services. The updated Agreement will be effective as of the time of posting, or such later date as may be specified in the updated Agreement. If you do not agree with any modifications, you may stop using the Model API Services and terminate this Agreement pursuant to Section 6 (Term and Termination).

j. Miscellaneous. Section headings are inserted for convenience only and shall not affect interpretation of the Agreement. If any provision of the Agreement is held by a court of competent jurisdiction to be contrary to law or otherwise unenforceable, the provision will be modified by the court and interpreted so as to best accomplish the objectives of the original provision to the fullest extent permitted by law, and the remaining provisions of the Agreement will remain in effect. A waiver of any right under the Agreement is only effective if it is in writing and only against the party who signed such writing.

EXHIBIT A: ACCEPTABLE USE POLICY

Acceptable Use. The Model API Services are available for access and use by you solely for lawful and permitted purposes, in accordance with the Agreement and the Documentation. Any action by you that we determine, in our sole discretion, violates this Acceptable Use Policy is prohibited.

This Exhibit A supplements the Company's Model Acceptable Use Policy (the "Model AUP"), which is incorporated by reference and available at: <https://thinkingmachines.ai/model-acceptable-use-policy/>. For purposes of this Agreement, all references to "Model Materials" in the Model AUP shall be deemed references to "Model API Services" as defined herein.

Supplemental Restrictions for Hosted Access

The following restrictions apply in addition to, and do not limit, the restrictions in the Model AUP.

You shall not do, and shall not assist, permit, or enable any third party to do, any of the following:

- Circumvent, exceed, or attempt to circumvent any rate limits, usage quotas, concurrency limits, or per-key or per-account restrictions applicable to the Model API Services, including by rotating accounts, keys, or credentials, or by distributing requests across accounts to evade limits.
- Disassemble, reverse engineer, decode or decompile any part of the Model API Services;
- Buy, sell or transfer API keys without our prior written consent in each case;
- Attempt to defraud, deceive or impersonate any other person or entity, misrepresent your affiliation with a person or entity, hide or attempt to hide your identity, or otherwise use the Model API Services for any invasive or fraudulent purpose;
- Use Model API Services to develop, train, fine-tune, distill, or materially improve a competing model or service, or to systematically collect Outputs for the purpose of building training datasets for a competing model or service, without the Company's prior written consent.
- Transmit to or from the Model API Services any unlawful, threatening, libelous, defamatory, obscene, pornographic, or other material that would violate any law;
- Attempt to interfere with, compromise the system integrity or security of, or decipher any transmissions to or from, the servers running the Model API Services;
- Transmit invalid data, viruses, Trojan horses, worms, time bombs, cancelbots, corrupted files or other malicious code or other software agents through the Model API Services

EXHIBIT B: API Platform Providers

OpenRouter
